

Efforts toward SDGs | FY2023 Archive

The Sustainable Development Goals (SDGs), adopted at the UN Sustainable Development Summit held in September 2015, comprise 17 goals and 169 targets to create a future where no one is left behind and are global efforts to be accomplished by 2030.

In response to the diverse and changing social expectations and demands, the Sumitomo Pharma Group has identified Material Issues based on its belief that it is important to realize both contribution to social sustainability and its own sustained growth through the creation of value that only it can deliver by utilizing the Group's capital (strengths) and also the development goals of the SDGs.

Going forward, the Sumitomo Pharma Group will continue to contribute to the realization of a sustainable society by addressing the issues facing society.

| SDGs to which the Sumitomo Pharma Group contributes

While concentrating our efforts primarily on Goal 3, which is directly related to Sumitomo Pharma's Mission and where we can best utilize our strengths, we are also actively working on Goal 8, 10, 12, 13, 16, and 17.

| The Sumitomo Pharma Group's Top Priority: Sustainable Development Goals and Main Targets
